can be quickly supplied here no matter what they are. If you need a staple article or an epicurean delight, if it is in the market we have it for you—if it is in Flour or any other produce—Tea, Coffee, Butter, Spices, Oil—in short whatever you need in the grocery line. Just give us a call or ring up Black 583 and we can soon satisfy you of our competency to fill orders at the very bottom prices.

100 men's and boys' suits has just arrived in all leading shades and sets in large variety at the lowest prices at Henry Marcus'. Our line in shoes is complete for ladies, men and children. We guarantee every pair we sell at H. Marcus'.

Our success isn't made of orders. It is made up of re-orders. And a good customer wrongly treated, lasts no longer than the shoddy he buys.

There is always a "come back" on every sale. Whether it is a entirely upon your product itself, on every sale. Whether it is a "come back" in returned goods depends entirely upon the product itself.

"Value Received" is the best potential salesman after the first order has been filled.

Every cent saved in shortened value, is lost in shortened trade. To keep up sales we keep up the quality.

We aim first to sell satisfaction, and the goods that give it re-sell themselves.

SMITH'S CASH STORE.

VERY SPECIAL OFFER.

Our subscription books are open this month to sell 1000 families a Co-operative share in this company for special "building-up" purposes. A membership share costs \$10.00. You get a certificate for it, entitling you to five per cent discount on all goods you buy from us. For only \$10.00 invested, you get this liberal discount and practically own the goods you buy at cost. You can share in net profits earned by these shares besides, if you wish to invest more, but no larger discount is given to any one.

Purely as an investment I know of nothing better. I have managed and helped to manage this business since a boy and I know what it is worth and what it will do. There is not a detail that I am not personally acquainted with and able to perform. I am therefore sure when I say, "It will pay you." It will pay more returns than you have any idea of, particularly the next five years, during San Francisco's rebuilding. You get your share without work or effort. It's a chance to go into business with your small capital, joining ours, to earn the same proportion.

It is a rare chance. If you believe, after twenty-six years of conservative and a successful business, we are capable of handling your account earning added money for you by savings, then write to me today for special payment terms, stating the amount you could invest. You can buy on the bde-rock basis now! The shares of this company are \$10.00 I look for them to pay ten per cent dividend in 1907. They will sell for a premium one year hence. Our

credit and business volume was never greater. Our earnings are three times what they were.

Our April loss will be made up and more so in one year. It speaks for itself—and the Cash Mail Order System—that our total fire loss, crushing as it was, did not annihilate us, that we had a building in progress on the rear L of our lot before the fire stopped burning, that we also own a commodious building adjoining, with greater facilities than before—and that we duplicated over \$2000 of goods at once for our patrons, so that none should suffer.

It will take money to rebuild and stock our permanent Market street location. We know added trade is in sight as soon as we do so, thus this "Special Offer" to bring in new funds quickly. At present we devote ourselves mostly to builders' hardware and staple groceries in every day demand. We may carry clothing, dry goods and similar lines on the ground floor on Market street—the rear adjoins present buildings.

Our sales today are \$1000 to \$1600 daily. Expenses today are \$3,000 a month less than to sell the same amount formerly. Join while we are building up and reap the benefit, while it only costs \$10.00.

Drop me a line and I will promptly answer your enquiries.

COUNTY OFFICIAL PAPER.

Saturday, December 8, 1906.

D. E. O'KEEFE.....EDITOR AND PROPRIETOR

NOTICE TO ARCHITECTS.

Office of the Clerk of the Board of Supervisors of the County of San Mateo, State of California, Redwood City, California, December 3, 1906.

The Board of Supervisors of San Mateo County invites certificated architects to submit original designs, plans and specifications, and estimates of cost in competition for a new Courthouse to be located at Redwood City. The lot is 200 feet by 300 feet, forming a full block, and known as the Courthouse Block. The new building will face south on the 200-foot frontage.

There is now in place the foundations, basement walls, and dome, the same having been constructed for the new Courthouse building recently demolished.

The Board leaves to the competing architects as much freedom in design and construction as is possible, making only the following suggestions, subject however, to the use of present foundations, basement walls and dome now in place, so far as the same may be made practicable, in the construction of the proposed new building; the floor beams to be placed in a position not exceeding a six-foot span; there also being now on hand, rescued from the wreck of the former building, a large amount of materials, consisting of stone veneer, wood work, brick, etc.; it being the desire to use as much of said materials as can be made serviceable in the new building; and special attention is hereby called to these matters.

The further suggestion is made that the rear portion of said building shall be made square instead of circular, as formerly, and that portion thereof extended for a distance of 14 feet further back; the building also to be supplied with conduits for gas, electricity, and telephone service (it being the intention to use an intercommunicating system), and to be heated by a hot-water system.

The building is to be of steel frame construction, two story high, with basement, and constructed of brick with stone veneer, and built throughout with fire-proof materials; basement to be the same as the present; first story not less than 14 feet high; second story not less than 15 feet high; foundation walls— inches thick; first 21 inches thick and second story walls 17 inches thick. The building to be used for general county purposes; to contain the usual offices for conducting county official business, including a Board of Supervisors room and a Superior Court room. The cost of the building complete, excepting movable furniture, and not including the foundations, basement walls and dome, to be based on a total valuation of \$125,000.00.

All designs, plans and specifications submitted to be drawn to a scale of one-eighth inch to one foot, and to be made and submitted on tracing cloth 25 by 30 inches in size; also six sets of blue prints of the same, together with type-written estimates of cost, permanently bound at the top and delivered flat. The drawings, plans and specifications must include a basement plan, first and second floor plan, a front and side elevation and cross-sections through the center of the building at right angles to the front and longitudinally; also one perspective elevation of the south and west frontages, together with six unmounted photographs or reproductions of the same to accompany and be bound with each set of blue prints. All designs, plans and specifications will be received and must be presented, and the designs, plans and specifications that may be accepted will be adopted, subject to the following conditions: That the designs, plans and specifications so accepted by said Board, together with the working drawings and specifications which will be made in connection therewith, shall be subject to competitive bids by contractors, and they, said designs, plans and specifications, must be so drawn that the accepted bid upon said designs, plans and specifications will be within the estimate of the architect drawing the same, and not to exceed the sum of \$125,000.00. In the event that the contract shall be let within the estimated sum of the architect whose plans have been so accepted, then and in that event, the successful architect so furnishing the said accepted design, plans and specifications will be awarded the contract for the furnishing of said designs, plans and specifications and the superintendency of said building to its final completion and acceptance, at a compensation of five per cent upon the contract price, and in addition thereto, a premium in the sum of \$1,000. It being distinctly understood that the architect drawing said designs, plans and specifications and presenting them to said Board, and said Board receiving and adopting the same shall not receive any compensation for so drawing said designs,

Free Delivery to Redwood City The Inevitable RAINY DAY

The man who doesn't own a Carvenette Rain Coat reminds us of the one who owned a house with a leaky roof that needed shingling. When asked why he didn't patch it he replied, "When its dry weather, I don't need to, and when it rains it's too wet."

The man without a Cravenette can stay in when it rains, and when the sun shines he doesn't need an overcoat. But if he owns one of our Cravenettes at the reasonable outlay of

\$15.00 to \$25.00

he has a rain coat for wet weather, that is equally good for general wear, and looks like any other well built coat.

plans and specifications and presenting them to said Board, unless the contract price is within his estimate, and said estimate not to exceed the sum of \$125,000.00. The architect whose drawings, plans and specifications shall receive the second recommendation, shall be paid \$400; the architect whose drawings, plans and specifications shall receive the third recommendation shall be paid \$100. Said sums respectively shall be in full for all services rendered in the preparation of said designs, plans and specifications, and all other architects whose designs, plans and specifications that shall not be accepted and that shall not come within the first, second or third award, shall not be entitled to, and shall not receive any compensation for the services they may have rendered, or for the work performed in the preparation of said designs, plans and specifications.

All drawings, plans and specifications must be delivered to the Clerk of said Board of Supervisors on or before 10 o'clock a. m. of Monday, the 21st day of January, 1907. The Board reserves the right to reject any and all plans and designs that may be presented under this notice. By order of said Board of Supervisors of the County of San Mateo, State of California.

A POPULAR WEDDING
THE MARRIAGE OF H. C. ROSS AND MISS BEGER A GREAT SOCIAL EVENT
Miss Julia Beeger and Hall C. Ross were married at high noon Wednesday in the little church of St. Peter's in this city. The ceremony, which was one of the most elaborate that has been held in this county for some time, was performed by the Rev. Dr. D. Charles Gardner, of Stanford University, and said according to the ritual of the High Episcopal Church.
The little church was crowded to the doors by the many friends of the young couple, many of whom had come from a great distance to witness the ceremony and wish the happy pair God speed upon the long journey through life upon which they were about to embark. Long before the appointed hour every seat in the church was taken and the doors were closed in order that the aisles might be kept clear until after the arrival of the bride.
Before the clock in the school-house had finished striking the hour of twelve the bride arrived at the church, accompanied by her brother Carl, who later gave her away.
At the door they were met by Miss Gertrude Beeger, sister of the bride and maid of honor, and the four bridesmaids, Miss Pauline Hanson, Miss Myrtle Rosseter, Miss Pauline Beeger and Miss Lulu Beeger, upon one side of the entrance, and the ushers, Ben Saunders, Will Childs, Guy Hull and George Hewitt on the other.
Amid the strains of Lohengrin's beautiful wedding march, played by Miss Gussie Upham, of Palo Alto, the bride was escorted to the altar where the groom, who had arrived from the rear, accompanied by his brother, Lee Ross, the best man, stood under a large wedding bell of white chrysanthemums ready to receive her.
The ceremony was short but impressive, and after the services at the church the young couple were driven to the home of the bride's mother where an elaborate wedding breakfast was set. Only a few of the immediate relatives were present at the breakfast, but later a reception was given at the house, at which the many friends offered congratulations and manifested much interest in the beautiful presents which occupied a large corner of the parlor.
Like the church, the house was beautifully decorated with white chrysanthemums and pink carnations interwoven with huckleberry trees and smilax. A large canopy of smilax and pink carnations was built in the parlor under which the bride and groom stood and received the congratulations of their many friends.
After the reception the couple left in an automobile for San Jose, where they caught the overland train for Southern California to spend their honeymoon. Like most young couples, they had previously planned a way to avoid the shower of rice and old shoes which always become the essential feature in bidding farewell at the depot. The plan was discovered, however, and an extra automobile was procured by several of their friends who showered them with rice to the very streets of San Jose.
The bride was handsomely dressed in a gown of chiffon satin with renaisance lace in train princess with bridal veil caught with orange blossom. She carried a shower bouquet of lilies of the valley, while a cross of pearls, given by the groom, hung from a little chain around her neck.
Miss Gertrude Beeger wore pink embroidered net and carried a bouquet of pink carnations, while the four bridesmaids were attired in white lace over pink and carried bouquets of white carnations. Mrs. George C. Ross, mother of the groom, wore black crepe de chene trimmed with silver embroidery. Mrs. Beeger, mother of the bride, was dressed in black crepe de chene.
The bride is the eldest daughter of Mrs. Mary Beeger and is an accomplished young lady. Both she and the groom have many friends here who, with The Times-Gazette, wish them happiness in whatever walk of life they may travel.
The groom is a promising young lawyer of the city, where he has been associated with his father, George C. Ross, for some months past. He is a graduate of Stanford University, where he was favorably known among the members of the legal fraternity of that institution.
After their return from the south they will go to San Mateo, where the groom has built a beautiful little bungalow which will be their future home.

The basement is to be of the same height as at present.
